

Contents

MATHEMATICS

- On endomorphisms of groups of order 32 with maximal subgroups $C_4 \times C_2 \times C_2$
Piret Puusemp and Peeter Puusemp 105
- F-seminorms on generalized double sequence spaces defined by modulus functions
Enno Kolk and Annemai Raidjõe 121
- The field of rational constants of the Volterra derivation
Janusz Zieliński 133

CONTROL SYSTEMS

- Polynomial accessibility condition for the multi-input multi-output nonlinear control system
Ülle Kotta, Maris Tõnso, and Yu Kawano 136

COMPUTER ENGINEERING

- Environment for the analysis of functional self-test quality in digital systems
Raimund Ubar, Sergei Kostin, Helena Kruus, Margit Aarna, and Sergei Devadze 151

METROLOGY

- Finite resolution and serial correlations in mass metrology
Viktor Vabson, Riho Vendt, Toomas Kübarsepp, and Mart Noorma 163

METEOROLOGY

- Statistics of different public forecast products of temperature and precipitation in Estonia
Sirje Keevallik, Natalja Spirina, Eva-Maria Sula, and Inga Vau 174

FOOD SCIENCE

- Characterization of Estonian honeys by botanical origin
Evelin Kivima, Andrus Seiman, Raili Pall, Evelyn Sarapuu, Kaie Martverk, and Katrin Laos 183
- Influence of guar gum/furcellaran and guar gum/carrageenan stabilizer systems on the rheological and sensorial properties of ice cream during storage
Tiina Klesment, Jelena Stekolštšikova, and Katrin Laos 193
