XX sajandi totalitaarsete vägivallarežiimide omavahelised kokkulepped ja heitlus põhjustasid paljudele Euroopa riikidele ja rahvastele tohutuid kannatusi. Ka Eesti ei pääsenud neist. Meie riik kaotas enam kui 50 aastaks iseseisvuse, meie rahvas kaotas vabaduse ning pea iga pere mõne või mitugi lähedast.

Ometi ei tasuks Eestil taotleda sõdades ja okupatsioonides kõige enam kannatanud rahva kurba tiitlit. Olen kirjutanud, et oma ohvrite ja kannatuste instrumentaliseerimine, selle kasutamine välis- või sisepoliitikas annab harva soovitud tulemuse. Ohvreid ja kannatusi tuuakse oma mahajäämuse, nõrkuse või saamatuse vabanduseks. Aga Eesti rahvas pole väiksusele vaatamata ei maha jäänud ega ka mitte saamatu. Oleme taas vabad, tagasi demokraatlikus väärtusruumis, jõukamatena kui iial varem.

Julgelt tulevikku vaatamine ja ühiselt edasi liikumine ei tähenda mineviku unustamist. Vastupidiselt naiivsetele või omakasupüüdlikele soovitudele "klammerdume" me ka edaspidi Eesti rahva tänast teadvust kujundanud minevikuseikadesse. Meie minevik on vastus neile, kes küsivad: mis on olnud Eesti kiire muutumise alus ja eeldus.

Väike rahvas teisiti ei saagi. Aus tegelemine oma minevikuga eeldab täielikku, nägude ja nimedega tõde Eestis aastatel 1940-1991 toimunu kohta. Need näod ja nimed marmortahvlitel ja raamatutes kirjutavad meie mineviku meie teadmistesse ja mälestustesse. Seda on vaja ennekõike tänastele noortele, meie lastele ja lastelastele. Neile, kellele nn Vene aeg märgib vaid vanematelt kuulnud seiku absurdihõngulisest igapäevaolmest.

Küüditamised, poliitilised mõrvad ja vangistamised, nuhkimised ja tagakiusamised, noodsamad 87 035 nime ses raamatus ei ole absurd. See on Eesti perede valu ja mure, purunenud saatused ja elamata elud. See on mitme põlvkonna tragöödia, väga pikkamisi armistuv haav rahva kehal.

Kui soovime, et Euroopa XX sajandi ajaloo tervik-käsitlus võtaks edaspidi omaks ka Ida- ja Kesk-Euroopa, sealhulgas Balti riikide ja Eesti vaatenurga, tuleb meil omalt poolt pakkuda autentset allikmaterjali ja analüüsi. President Lennart Meri poolt kokku kutsutud Inimsusvastaste Kuritegude Uurimise Rahvusvaheline Komisjon ja Memento, aga ka teised tunnustatud uurijad on seda tänuväärset tööd enam kui kümme aastat teinud.

See raamat on kivi teadmiste ja arusaamise müüris, mida me ühiselt laome koos lätlaste ja poolakate, tšehhide ja ukrainlastega, ungarlaste ja leedulastega. See raamat on ka neile, kes tahaksid möödaniikku unustada. Veelgi enam on see neile, kes Eesti rahvale osaks saanud piinu eitavad või õigustavad. Aga ennekõike meile endile, et me kunagi ei unustaks.

*The battles, but no less, the private deals between the regimes of totalitarian violence of the Twentieth Century caused unimaginable suffering for the peoples and nations of Europe. We lost our independence for more than fifty years, our people lost its liberty and nearly every family one or more immediate member.*

*It is not for Estonia, however, to strive for the title of the nation to have suffered most. I have written that instrumentalising ones suffering and victims, using them for foreign or domestic policy ends rarely brings results hoped for. Victims and suffering are too often used to justify ones own shortfalls, backwardness, weakness and incompetence. But despite our small numbers, Estonians are neither backward nor incompetent. We are once again free, we have turned to the space of democratic values, richer by our experiences than ever before.*

*Boldly looking into the future and moving on does not, however, mean forgetting the past. We shall ignore the naïve or self-interested suggestion that we do so; we shall continue to hold on to the facts of the past that have formed the consciousness of Estonians today. Our past is our answer to those who ask, what have been the sources of and motivations for Estonia's rapid changes.*

*A small nation cannot do otherwise. An honest appraisal of one's past presumes the complete truth, together with faces and names, regarding what happened in Estonia between 1940 and 1991. Those names, those faces, hewn into stone and into books shall write our past into our understanding and our memories. Above all, we need this for our young, our children and grandchildren. For those, for whom the term "the Russian time" denotes merely absurdist tales of everyday life recounted by ones parents at the dinner table.*

*Mass deportations, political executions, torture and imprisonment, spying and persecutions – the 87,035 names in this book are not absurd. It is the pain and despair of Estonian families, crumbled fates and unlived lives. It is the tragedy of many generations, an excruciatingly slowly healing wound on the body of the nation.*

*If we want the history of Europe in the 20<sup>th</sup> Century to be complete, including also what is still denoted separately as Eastern and Central Europe, including the Baltic States and Estonia, we must offer original source material and analyses. President Lennart Meri's International Commission for the Study of Crimes Against Humanity, Memento, as well as other recognised scholars have engaged in this often thankless work for over a decade.*

*This book is a stone in the wall of knowledge and understanding; a wall we must build, together with Latvians and Poles, Czechs and Ukrainians, Hungarians and Lithuanians. This book, moreover, is also for those who would like to forget the past, or wish that we do so. Even more it is for those who deny or justify the suffering of Estonians under the occupations. First and foremost, however, it is for us, ourselves, so that we may never forget.*

Head lugejad,

teie käes on seitsmes mustakaaneline raamat Memento Liidu töögrupi väljaannete sarjast, koondnimestik, mis hõlmab kõiki selgitatud poliitiliste repressioonide ohvreid okupatsiooniaegsest Eestist – nii poliitilistel põhjustel arreteeritud kui küüditatud. Rida reaalilist meile ette meie kaasmaalaste nimed, tummade lehekülgede kaupa. Iga kuiva rea taga on üks inimsaatus... Üks võimalik elu, mis oleks võinud olla elatud vabale Eestile.

Siinse raamatusarja avakõite saatesõnas märkis president Lennart Meri, et „MEMENTO on oma senise tegevusega seadnud isiku kõige kõrgemaks väärtuseks õiguse elule.“ Täpselt samuti on riigi kõrgeimaks väärtuseks õigus olemasolule ja iseseisvusele. Ennekõike seda õigust on totalitaarreežim vaidlustanud, suur osa koondregistri kirjetest lõpevad surma märgiga. Kuid ka need inimesed, kes repressioonidest eluga pääsesid, ei saanud kunagi naasta endistena ega endistesse oludesse – nende kodu, Eesti Vabariik, oli okupeeritud maa. Nõukogude võimu on aga vaidlustanud jällegi need kodanikud, kelle nime leiame käesolevast raamatust. Lõpuks ei olnud ühelgi poliitilistel põhjustel arreteeritud ega küüditatud muud „süüd“ kui vastuolu režiimiga selles küsimuses.

Too koletu peatükk meie riigi ja rahva ajaloost 20. sajandil on nüüd igaveseks lõppenud, kuid ajaloolane töö selle ajaperioodi kohta on veel kaugel lõpetatusest, paljudel juhtudel on tegu alles andmekogumise faasiga. Nii on ka käesolevas köites ilmuv nimestik üksnes poliitilistel põhjustel arreteeritud ning küüditatud koondregister, mis ka ise uute andmete lisandudes samuti veel täieneb. Poliitvangidele ja küüditatutele tuleb lisada ka võõrväkke sundmobiliseeritud, samuti sõjapõgenikud, kes pidid kodumaa maha jätma, ja paljud teised otsesed ja kaudsed kannatanud. Totalitaarse režiimi tunnusjoon on ju see, et ta kõikide allutatud riigi kodanike saatust puudutama ja painutama ulatus – kümneid tuhandeid inimesi hävitades, sandistades, vangistades ja lihtsalt hirmutades. Ühesõnaga, käesoleva raamatuga ei ammendu kaugeltki ülevaade nõukogude okupatsioonivõimu kuritegudest Eestis, praegune vahekokkuvõte on vaid vahejoon, töö peab jätkuma. Selleks tööks soovin Eesti Represseeritud Registri Büroole ja Eesti Memento Liidule jõudu ning viljakat koostööd Riigiarhiivi ja Justiitsministeeriumiga.

Dear Reader,

*This black-covered book, the seventh volume of the series published by Estonian NGO Memento is a summary register of all the ascertained victims of political repression during Soviet occupation in Estonia – both political detainees and deportees. Line by line, the silent pages of names of fellow countrymen appear before us. Each concise line embodies a human destiny. A life that could have been lived for free Estonia.*

*In his foreword to the opening volume of the series, President Lennart Meri noted that „through its activities, MEMENTO maintains that a person’s greatest right is the right to life.” Similarly, one could say that a nation’s greatest right is the right to existence and independence. It is this particular right that was challenged by the totalitarian regime, as evidenced by death notes at the end of many entries in this book. But even those who managed to survive the repressions were never able to return to their former self or former life – their home, the Republic of Estonia, was occupied. The Soviet system was in turn challenged by citizens whose names appear in this book. After all, the political detainees or deportees were “guilty” of nothing else than opposing the regime in that matter.*

*This monstrous chapter in the 20<sup>th</sup> century history of our nation and our people has been closed forever, but the historical work covering the period is far from complete – many cases are still in the phase of data collection. The list of names published in this volume is therefore a summary register of political detainees and deportees and shall be updated as new data arrives. Next to political prisoners and deportees stand the victims of forced mobilisation and refugees, many of whom were never able to return, as well as many others subjected to direct or indirect suffering. The trait of a totalitarian regime is that it reaches and bends the destiny of every citizen of a subordinated state – destroying, crippling, imprisoning and simply intimidating tens of thousands. In all, this book does not exhaust the crimes of Soviet occupation in Estonia, the current summary is merely intermediate and the work has to be continued. To that end, I wish the Bureau of Estonian Register of Repressed Persons and the Estonian Memento success and fruitful cooperation with the State Archives and Ministry of Justice.*

***1. SISSEJUHATUS***  
*INTRODUCTION*

Nõukogude okupatsioonivõimu kuritegude tulemusena hukatud, arreteeritud ja küüditatud (represseeritud) inimeste andmed on nüüd tihedalt paigutatud esimesse nimede koondregistrisse. Koondregister hõlmab kuut nimekirjaraamatut lühitähistega R1-R6, vt lk 718. Koondregistri 623 leheküljel on avaldatud 87 035 järjekorranumbriga represseeritud inimese kirjet ja 1696 ilma järjekorranumbrita viitekirjet. Need 623 lehekülge moodustavad valdava osa käesoleva nimekirjaraamatu nr 7 (lühidalt R7) 720-st leheküljest.

Ülevaade käsilolevatest ja kavandatavatest nimekirjaraamatutest, vt lk 718, lubab järeldada, et Eesti eri liiki (endiste) represseeritute andmete alusel saab koostada veel 2 käesoleva raamatu mahulist koondregistrit.

Koondregistri kirjeridadel on lühiaandmed nende Eesti elanike (peamiselt EV kodanike) kohta aastatest 1940-1990, kes määrati Nõukogude okupatsioonivõimude poolt, poliitilistel põhjustel ning valdavalt õiguslikult ebapädevate seadusandlike aktide alusel mahalaskmisele või hukati ilma otse otsuseta; määrati vangilaagrisse nälja, külma ja sunnitöö vahendusel hävitamisele või määrati (valdavalt administratiivkorras) igaveseks ajaks sundasumisele raskete elamistingimustega (sageli lausa ebainimlike tingimustega) paikadesse. Siit tuleneb käesoleva raamatu lühike pealkiri „Küüditatud, arreteeritud, tapetud 1940-1990“. Viimase, 1990. aasta repressioone oleme uurinud nulltulemusega. Viimased poliitilistel põhjustel vahistamised oleme registreerinud 1989. aastast.

Käesoleva raamatuga R7 avaldatud koondregistri kirjed tõendavad, et 87 035 Eesti elanikku (peamiselt kodanikku) represseeriti vähemalt üks kord. Paljusid nende hulgast represseeriti mitu korda. Näiteks sageli toimus arreterimine ning sellele lisaks küüditamine või vastupidi; küüditatud inimene pandi aastateks vangilaagrisse ja siis saadeti tagasi sundasumise kohta. Inimesi arreteriti erinevatel aegadel mitu korda. Mõnda inimest määrati küüditamisele nii 1941. kui 1949. aastal. Seega on represseeritud inimeste arv väiksem kui repressiooniaktide arv. Memento andmebaasid ja nende töötlemisprogrammid ei võimalda määratleda täpset repressiooniaktide arvu, vt statistika tabel 3.3 Raamatute R1-R6 summaarsest korduvkirjete arvust 10318, vt statistika tabel 3.3, on osa isikuandmete korrigeerimise, täiendamise kirjed, märkusega „Avaldatud uuesti“ ning ülejäänud osa täiendava repressiooniakti ehk teise ja kolmanda korra repressiooni kirjed. Kirjete arv avaldatud raamatutes R1-R6 on 97 353, mis on korduvkirjete arvu 10 318 võrra rohkem kui represseeritute arv 87 035.

*The data of the persons executed, arrested and deported (repressed) as a result of the crimes perpetrated by the Soviet occupation authorities is now compacted in the first consolidated names register. The consolidated register encompasses six name list books denoted with abbreviations R1-R6, see page 718. The 623 pages of the consolidated register contain 87 035 repressed persons' entries with sequence numbers and 1696 reference entries without sequence numbers. These 623 pages comprise the greatest part of this name list book No. 7 (R7) totalling 720.*

*The overview of the current and planned name list books (see page 718) indicates that 2 more voluminous consolidated registers can be compiled on the basis of the information about various (former) Estonian repressed persons.*

*The consolidated register entries consist of brief data on those residents of Estonia (mainly Estonian citizens) who in 1940-1990 were singled out by the Soviet occupation authorities, on political grounds and predominantly on the basis of judicially inapplicable legislative acts, to be shot or otherwise killed without an actual death sentence, sent into prison camps for elimination through hunger, cold weather and forced labour, or into permanent settlement (mostly with administrative procedures) at locations with hard living conditions (often purely inhuman conditions). Hence the short title of this book – *Deported, arrested, murdered in 1940-1990*. We have obtained zero results about the last repressions that took place in the year 1990. The last detentions on political grounds we have registered date back to 1989.*

*Entries in the consolidated register published in this book (R7) confirm that 87 035 residents of Estonia (mainly Estonian citizens) were repressed at least once. Many of those people were repressed several times. For instance, a person was often arrested and then deported or vice versa, a deported person was put into a prison camp for many years and then sent back into forced settlement. Some people were arrested several times. A few people were designated for deportation both in 1941 and 1949. Therefore, the quantity of the repressed persons is smaller than the quantity of the acts of repression. Memento's databases and their processing software cannot determine the exact number of acts of repression, see statistical Table 3.3. Of the summary quantity of the recurrent entries in the R1-R6 books – 10 318 (see statistical Table 3.3) – some represent corrected and supplemented personal data, with the "Published again" comment, and others are entries for the additional act of repression, i.e. a second or a third repression a certain person was subjected to. The total quantity of the entries published in the R1-R6 books is 97 353, which is 10 318 more (recurrent entries) than the number of the repressed persons – 87 035.*

Kes kuulusid hukkamisele, arreteerimisele või küüditamisele, selle kohta on andmed nimekirjaraamatutes R1-R6. Memento ERRB senise töö üks üldisemaid järeldusi on, nagu oleme varemgi kirjutanud, – meie rahva intellektuaalne paremik, vaimsed ja eetilised liidrid kas hävitati, saadeti Siberisse või nad pidid Läände põgenema. Nii ütles ka kaitseminister Jüri Luik oma kõnes konverentsil 14. juunil 2000 Tallinnas. See järeldus kehtib sellegi raamatu puhul.

### KÄSIOLEVAD JA KAVANDATAVAD RAAMATUD

ERRB on avaldatud nimekirjaraamatutes R1-R7 registreerinud 87 035 represseeritud isikut. Viimatinimetatud arv suureneb pidevalt. Koostamisel on nimekirjaraamat R8 „Lisaregister“, mille andmebaasi oli detsembri 2006 seisuga sisestatud 2750 isikukirjet, 2007. a septembri seisuga 5335 isikukirjet nimekirjaraamatute R1-R6 täiendamiseks. Iga kuu lisandub siia kuni paarsada isikukirjet. Andmeid saame Tallinna arhiivide läbiuurimata säilitusühikutest. Reservis on Eesti maakondlikud arhiivid ja Venemaa arhiivid.

Koostamisel olevate nimekirjaraamatute R9 ja R10 jaoks oli seisuga 12.12.2006 sisestatud 45 299 isikukirjet, ning 2007 septembri seisuga üle 55 000 isikukirje. Need isikud on okupeeritud Eesti elanikud, kes mobiliseeriti aastatel 1941-1945 Venemaa ehk okupantriigi NSVL sõjaväkke. Mobiliseeritud hukkusid peamiselt transpordil NSVL tagalasse 1941. aastal, tagala tööpataljonides nälja, külma ja talverietuse puudumise, raske töö ja ebainimlike elamistingimuste tõttu. Nõukogudevastase meelsuse pärast hukkasid repressiivorganid mobiliseeritud mahalaskmistega ja suretasid vangilaagrites. Lõppeks surid tagalaõudustest pääsenud mobiliseeritud rindel sakslaste vastu võideldes. Koduigatsuse tõttu läbi rinde vaenlase poolele üle läinud ja hiljem „omade“ poolt vangivõetud endised mobiliseeritud mehed reeglina ei jõudnud tagasi kodudesse. Sisestatud isikuandmetest on tehtud arvutiväljatrükk, kuid lõplikku andmete töötlemist ja toimetamist ei ole veel alustatud.

Peatükis „Väljaannete seeria“, vt lk 718, on 7 avaldatud raamatu bibliograafilistest andmetest allpool „käsilolevate ja kavandatud“ raamatute nimekiri. Selle nimekirja 6 teemale on kavandatud kokku 10 raamatu. Neist kümnest on esimesed 6 töötluses. Viimase viie aastaga on mainitud 6 nimekirjaraamatu R8-R13 andmebaasidesse sisestatud üle 128 000 isikukirje. Üle poole sisestatud isikukirjetest on veel töötlemata ja korduvkirjetega. Üldmääritud 128 000 isikukirjest saab koostada mitu Memento ERRB seeria nimekirjaraamatu, kuna ühte raamatusse mahub vaid 20 000 isiku andmed.

*The R1-R6 name list books contain information about those who were to be killed, arrested or deported. One of the general conclusions from Memento's ERPRB work carried out so far is, as we stated previously, that the intellectual elite of our nation, its spiritual and ethical leaders, were either murdered, sent to Siberia or forced to flee to the West. The same idea was expressed by Defence Minister Jüri Luik in his speech on the 14th of June, 2000, in Tallinn. This conclusion is applicable to the content of this book, too.*

### CURRENT AND PLANNED BOOKS

*The ERPRB published in the R1-R7 name list books data about the 87 035 repressed persons that had been registered by that time. This figure is constantly increasing. The R8 name list book titled "Additional register" is being compiled and the corresponding database contained: as of December 2006, 2750 personal entries; as of September 2007, 5335 personal entries – to supplement the content of the R1-R6 name list books. Up to two hundred entries are added there on a monthly basis. We obtain the data from unresearched preservation units at archives situated in Tallinn. In reserve are the Estonian county archives and archives in Russia.*

*For the R9 and R10 name list books being compiled, as of 12.12.2006, 45 299 personal entries were made; as of September 2007 – over 55 000 personal entries. Those persons are residents of occupied Estonia who were in 1941-1945 mobilised into the Red Army, i.e. into the armed forces of the occupying state – the Soviet Union. The mobilised persons mainly perished – while being transported into the rear regions of the USSR in 1941 and in labour battalions there, suffering from hunger, cold weather and insufficient winter clothing, as well as from hard labour and inhuman living conditions. Repressive state organs murdered the mobilised people with firing squad executions for being anti-Soviet minded or just let the awful conditions at prison camps do the job. Many of the mobilised persons who had managed to survive the horrors they had been subjected to in the rear regions died later fighting the Germans on the frontlines. Those who had felt homesick and gone over to the German side, but later captured by "their own", very rarely returned home. The entered personal data has been printed out but the final data processing and editing stages still lay ahead.*

*The chapter titled "Series of publications" (see page 718) lists the titles of not only the 7 already published books, but also of the books that are being compiled or for which plans have been made. A total of 10 books has been planned for the 6 topics of this list. The first 6 of these 10 books are being prepared. Over the last five years, more than 128 000 personal entries have been registered in the databases of these 6 name list books, R8-R13. More than half of these entries have not yet been processed and there are recurrent entries. The aforementioned 128 000 personal entries will allow compilation of several name list books in Memento's ERPRB series because one book can contain information about only 20 000 persons.*

### EESTI REPRESSEERITUTE REGISTRI BÜROO (ERRB) EESMÄRK JA MÕISTED

Algselt Eesti Memento Liidu, hiljem Memento Tallinna Ühenduse töögrupi ERRB eesmärgiks on aastatel 1940-1989 Eestis okupatsioonivõimude poolt ellu viidud inimsusevastaste kuritegude ja sõjakuritegude olemuse ning ulatuse väljaselgitamine represseeritute registri vahendusel, selleks et avaldatud infoga, nimekirjaraamatute ja elektroonilise andmebaasiga:

- jäädvustada saatusekaaslaste, eriti hukkunate mälestus, mis on Memento üks põhikirjalisi eesmäärke;
- täiendavalt argumenteerida Eesti kaasaegset sise- ja välispoliitikat selliste kuritegude vältimiseks tulevikus;
- kujundada suhtumist kuritegude ohvritesse ja teostajatesse;
- muuta repressioone käsitlevad andmed paremini kättesaadavaks diplomaatidele, ajaloolastele, pedagoogidele, ajakirjanikele, sotsioloogidele, teadlastele ja eraisikutele ning eriti endistele represseeritutele;
- jäädvustada ebainimlike repressioonide ulatus ja iseloom üksikisikute saatuste kogumina.

ERRB näeb oma nimekirjaraamatute koostamises sihtide ja radade otsimist, mis kergendaksid tulevaste põlvete tööd mineviku uurimisel. Ühtlasi on Memento kohustatud Eesti eest võidelnute ja kannatanute nimekirjade kokkuseadmise ja raamatutena avaldamisega mälestama neid, kes siit Siberisse viidi.

Tarkvarasüsteemi näol on tegemist Eesti represseeritud isikute elektroonilise andmebaasiga, mida nimetatakse Eesti Represseeritute Registrik. See nimetus on tinglik, kuna registris olev informatsioon peaks olema täpne. Andmed kogutakse arhiivide läbitöötamisel, samuti inimeste mälestustest. Paljud inimesed saavad ilmunud andmete kohta parandusi ja täiendusi. Inimeste mäluandmeid on siiski vaid paar protsenti (1,93% Memento küsitluslehtedel, vt R2 lk D42).

Represseeritute registris saab olema kuni 274 000-300 000 repressiooniakti isikukirjet, vähemalt identifitseerimist võimaldavas ulatuses, vt R3 lk. 16. Üks repressiooniakt on ühe isiku ühekordne arreteerimine või vangistamine, ühe isiku ühekordne küüditamine, jne. Elektroonilisse registriste sisestatud sadade tuhandete isikukirjete parameetreid (kuni 20 parameetrit ja mõnikord ka rohkem ühe repressiooniakti kohta) töödeldakse ja püütakse jäädvustada arusaadavas vormis.

### THE PURPOSE OF THE ESTONIAN REPRESSED PERSONS RECORDS BUREAU (ERPRB) AND RELATED NOTIONS

*The goal of the ERPRB, a workgroup of the Estonian Memento Union at first and of the Memento Tallinn Association later, is to determine the essence and the scope of the crimes against humanity and war crimes perpetrated by occupation authorities in Estonia in 1940-1989 and to do so by maintaining a register of repressed persons in order to publish the relevant information, including name list books, and also use this electronic database for the following aims:*

- *to ensure that those who suffered, especially those who perished, are remembered, which is one of the aims stipulated in the Memento Statutes;*
- *to shape attitudes towards the victims of crimes and their perpetrators;*
- *to make the data concerning the repressions better available to diplomats, historians, pedagogues, journalists, sociologists, scientists and private individuals in general, especially the former repressed persons themselves;*
- *to record the extent and the character of the inhuman repressions by presenting a common source of information about the fates of the individuals.*

*The ERPRB views the name list books' compilation work as a process of seeking such objectives and avenues that will make it easier for future generations to research our past. Memento is also obliged, with creation of name lists of those who fought and suffered for Estonia and publication of the corresponding books, to commemorate the people who were taken from here to Siberia.*

*The software system comprises an electronic database of the persons repressed in Estonia, called the Register of the Estonian Repressed Persons. This name is arbitrary because a register must contain impeccably precise information. The data is collected from processed archival documents and personal recollections. Many people send us corrections and additions for the already published information. Only about 1.93 percent of the data is based on recollections (see R2 page D42).*

*The repressed person's register is likely to have up to 274 000-300 000 personal entries depicting an act of repression, at least to the extent that enables identification – see R3, page 16. One act of repression is a single arrest or imprisonment of one person, a single deportation of one person, etc. The parameters (up to 20 parameters, sometimes even more, per one act of repression) of the hundreds of thousands of personal entries in the electronic register are processed and we attempt to record them in an understandable form.*

## 1.1. KOKKUVÕTE ARRETEERIMISTEST POLIITILISTEL PÕHJUSTEL 1940-1989

Eestis aastatel 1940-1989 poliitilistel põhjustel arreteeritud andmed on Memento nimekirjaraamatutes R1, R2 ja R3. Nimede koondregister ehk R7 kajastab R1-R3 andmeid. Koondregistris kokkuloetud arreteeritud nimede (isikute) arv raamatute lõikes on:

Raamat	Isikud	Kirjed
R1	19953	20164
R2	14500	17216
R3	12667	14498
Kokku	47120	51878

Parempoolne arvuderida tähendab siin R1-R3 avaldamisel kokkuloetud kirjeid koos korduvkirjetega (9,2%). Koondregistri kirjeridade arv vähenes peamiselt samanimeliste isikute korduvkirjete ühendamisega, selleks et saada mittekorduvaid isikuid, vt statistika osa tabel 3.3. Kahjuks ei leidnud seejuures mitmekordsed arreteerimised, samuti arreteerimised pluss küüditamine kajastamist.

Arreteeritustest ehk vahistatud inimestest (47120-st) vabastati eeluurimisel 55 ehk 0,12% ning kohtus mõisteti õigeks 107 inimest ehk 0,23%. Seega kokku 3-4 vaikumislubaduse allkirja andnud inimest igast 1000-st arreteeritust (st 0,35%) ei muutunud vangideks. 99,65% arreteeritustest said formaalsete kohtuotsustega valdavalt §58 alusel poliitvangid. Pärast lühiajalist vanglates viibimist viidi poliitvangid kodumaast kaugel asuvasse erivangilaagritesse (sunnitöölaagritesse), rangelt piiratud kirjavahetuse õigusega. Seega KGB poolt arreteeritu kadus: ta kas hukati, suri või paremal juhul saatis aastaid hiljem Siberi sunnitöölaagrist koju esimese kirja. Rahva jaoks tähendas poliitilistel põhjustel (KGB poolt) arreteerimine surma või pikaajalist, kuni 25+5 aastat sunnitööd Siberis. Nii Memento nimekirjaraamatutes R1, R2 ja R3 kui ka käesolevas raamatus R7 tähendab arreteeritu (ilma pikemate seletusteta) poliitvangi.

Arreteeritud nimistutesse kuuluvad ka tapetud, st surmaotsusega hukatud, ilma otsuse taotseta tapetud, kinnivõtmisel surnud, vangidena surnud jne, vt statistika tabel 3.2. Hukatuid, tapetuid, surnuid jt on kokku 14687 inimest ehk 31,2% arreteeritustest. Koondnimega „surnust“ oli mehi 13519 ja naisi 727 ning teadmata sooga inimesi 443, vt tabel 3.3. Vanemate inimeste surmaprotsent oli suurem, tabel 3.4. Nimede koondregistris tähistab inimese surma rist, „†“.

## 1.1. SUMMARY OF ARRESTS ON POLITICAL GROUNDS IN 1940-1989

*Information about the persons arrested on political grounds in Estonia in 1940-1989 is available in Memento's name list books R1, R2 and R3. The consolidated register of names (R7) contains the data from R1-R3. These are the numbers (persons) of the arrested persons' names from the consolidated register as listed in the respective books:*

Book	Persons	Entries
R1	19953	20164
R2	14500	17216
R3	12667	14498
Total	47120	51878

The right row of numbers here is for the entries tallied up as of the R1-R3 publication time, including recurrent entries (9.2%). The number of entries in the consolidated register decreased mainly due to the recurrent entries for persons of the same name having been merged in order to have non-recurrent persons – see the statistical part, Table 3.3. Unfortunately that process did not reflect multiple arrests and arrests coupled with deportation.

Of the persons arrested/imprisoned (47120), 55 persons – 0.12% – were released during the preliminary investigation stage and the courts acquitted further 107 persons (0.23%). Thus about 3 or 4 people (0.35%), sworn to secrecy against signature, from every thousand of arrested persons did not become prisoners. 99.65% of the arrested persons were formally charged and sentenced, predominantly based on §58, becoming political prisoners. After a brief period in prisons those political prisoners were taken to special prison camps (forced labour camps) far away from home and with severe restrictions applied to their right of correspondence. It can be therefore said that a person arrested by the KGB vanished – (s)he was either executed, died or, at best, sent his/her first letter home from a forced labour camp in Siberia several years later. Being arrested for political reasons (by the KGB) meant that you would die or be sent to Siberia for a long time (up to 25+5 years) to do forced labour. In Memento's name list books R1, R2 and R3 and in this book R7 the term “arrested person” denotes a political prisoner without the need for lengthy explanations.

The arrested persons list also includes killed people – those whose death sentence was carried out, those who were murdered without any death sentence, those who died when they were captured and so on – see the statistical Table 3.2. The total number of the executed, murdered, deceased, etc., persons is 14687, i.e. 31.2% of the total number of the arrested persons. There were 13519 men and 727 women who thus died, as well as 443 persons whose gender could not be established – see Table 3.3. The death rate among the elderly was higher – see Table 3.4. The consolidated names register uses the “†” sign to denote death.

### 1.2. KOKKUVÕTE KÜÜDITAMISTEST EESTIST VENEMAALE 1940-1953

1941. a. 14. juuni ja 01. juuli suurküüditamisega represseriti kokku 10882 inimest ehk ligi 1% Eesti elanikkonnast. Neist saadeti Venemaale igaveseks ajaks sundasumisele 7049 perekonnaliiget, kellest 33,1% seal surid; 3344 perekonnapead lahutati naistest-lastest loomavagunitesse paigutamisel ja viidi arreteerituna Siberi vangilaagritesse. Seal hukati, tapeti või suri neist 84,95%. Vähemalt 421 inimesel õnnestus küüditajate eest varjuda ehk muutusid koduta tagasiotsitavateks. 68 isiku represserimisliik on teadmata.

1941. a. suurküüditamisega represseritute hulgas oli mehi 52,2%, alaealisi lapsi vanusega (küüditamise ajal) 16 aastat ja nooremaid oli 24,27%. Represseerituna sündinud lapsi oli täiendavalt vähemalt 476.

Suurküüditamise I etapil juunis 1941 represseriti 10025 inimest ja II etapil juulis 1941 – 857 inimest. Sundasumise kohad olid peamiselt Tomski (3680 inimest) ja Kirovi (2149 inimest) oblastites ning mujal. Asumiselt vabastati valdavalt 1956-1958 aastatel.

Siin on mittetulundusühingu Memento allasutuse Eesti Represseeritute Registri Büroo (ERRB) andmed seisuga 2001. a. mis on avaldatud raamatus *Küüditamine Eestist Venemaale. Juuniküüditamine 1941 & küüditamised 1940-1953*, koost. Leo Õispuu, Tallinn, 2001 lk 60, 299, 318, 348. Lühendatult [Represseeritud isikute registrid (RIR) 6, lk 60, 299, 318, 348]. Memento ERRB on seni avaldanud nimekirjaamatutena koos RIR ehk R1 kuni R6.

**15.08.1945 suurküüditamisega** represseriti 557 inimest sakslastena. Represseeritute hulgas oli 438 sundasunikku, 1 vangistatu ja 118 milteküüditatud tagaotsitavat. Mehi oli 20,32%, naisi 50,46%, poisse ja tütarlapsi vanusega küüditamise ajal 17 aastat ja nooremad 17,8% ning mittetäielike andmetega perekonnaliikmeid 11,42%. Kokku surinud 13, neist 1 suri teel, 11 suri asumisel ja 1 surmakoht ei ole teada. Sundasumise kohad olid Molotovi (Permi) oblasti rajoonides. Sundasumiselt vabastati peamiselt aastatel 1953-1956. [RIR 6, lk 349].

**25.03.1949 suurküüditamisega** represseriti kokku 32748 inimest. Nende hulgas 21428 inimest alustasid trellitatud loomavagunites sõitu Venemaale 25-29. märtsil 1949. Mitusada küüditamisest mahajäänud inimest viidi riigi kulul või sõitsid omal kulul perekondadele järele hiljem – nende jaoks igaveseks ajaks ettenähtud sundasumispaikadesse. Mõne aasta jooksul lisandus sundasumispaikadesse vähemalt 400 vanglast vabanenud pereliiget ja 589 represserituna sündinud last.

Suurküüditamise päevadel (25.-29. märtsil) varjus küüditajate eest 10331 inimest, muutudes seega valdavalt koduta tagaotsitavateks ehk mitteküüditatud isikuteks. Loetletud isikud on registreeritud KGB poolt koostatud ja ametlikult kinnitatud küüditamisele määratud perekonna või üksikisiku numbritega tähistatud toimikutes, ka kõik mitteküüditatud inimesed. Viimaste saatus oli sageli raskem kui (küüditatutel) sundasumiskohas elanud inimestel.

### 1.2. SUMMARY OF DEPORTATIONS FROM ESTONIA TO RUSSIA IN 1940-1953

*The extensive deportation of June 14<sup>th</sup> and July 1<sup>st</sup>, 1941, resulted in repression of a total of 10882 persons – approximately 1% of the population of Estonia. 7049 of those people, family members, were sent to Russia for permanent forced settlement – 33.1% died there. 3344 people, family heads, were separated from their wives and children while being placed into railway cars for cattle, arrested and taken to prison camps in Siberia, where 84.95% of them were executed, murdered or simply perished. At least 421 persons managed to hide from the deporters – they became homeless fugitives. Nothing is known of the kind of repression meted out to further 68 persons.*

*In the extensive deportation of 1941 there were 52.2% men and 24.27% underage (as of the deportation date) children of 16 years and younger. At least 476 more children were born after the repression date in forced settlement.*

*During the first stage of that extensive deportation, in June of 1941, 10025 persons were repressed; during the second stage in July of the same year – 857 persons. The forced settlement locations were mostly situated on the Tomsk (3680 persons) and Kirov (2149 persons) regions, as well as elsewhere. People were released from forced settlement predominantly in 1956-1958.*

*Here is presented the information from the Estonian Repressed Persons Records Bureau (ERPRB) of the Memento non-profit association as of the year 2001 – as published in the book "Deportation from Estonia to Russia. June 1941 deportation & deportations in 1949-1953", compiled by Leo Õispuu, Tallinn, 2001, pages 60, 299, 318, 348. Abridged [Register of repressed persons (RRP) 6, pages 60, 299, 318, 348]. Memento's ERPRB has so far published six registers of repressed persons as name list books 1-6 accordingly.*

*During the extensive deportation on the 15<sup>th</sup> of August, 1945, 557 persons were repressed as Germans. The repressed persons included 438 forced settlers, 1 prisoner and 118 non-deported fugitives. There were 20.32% men, 50.46% women, 17.8% boys and girls of 17 years or younger as of the deportation date and 11.42% family members on whom only incomplete data is available. A total of 13 people died – 1 en route, 11 in settlement and 1 more person's death location remains unknown.*

*The forced settlement locations were in different districts of the Molotov (Perm) Region. People were released from forced settlement predominantly in 1953-1956. [RRP 6, page 349].*

*During the extensive deportation on the 25<sup>th</sup> of March, 1949, a total of 32748 persons were repressed. 21428 of them departed Estonia in the eastern direction in railway cattle cars with barred windows on March 25<sup>th</sup>-29<sup>th</sup>, 1949.*

*Several hundred people left behind during the deportation were later taken at the state's expense or paid for their own travel to join the deported family members at the designated permanent forced settlement locations. Over the next few years they were joined by at least 400 family members released from prisons and 589 children born after the repression date in forced settlement.*

*On the days when that extensive deportation took place (March 25<sup>th</sup>-29<sup>th</sup>), 10331 persons managed to evade the deporters, thus predominantly becoming homeless fugitives (non-deported persons).*

Küüditatute hulgas oli naised 62,6% ja lapsed vanusega küüditamise ajal 17 aastat ja nooremad 32%.

Sundasumiskohad paiknesid peamiselt Novosibirski oblastis (10080 inimest), Krasnojarski kraisis (6654) ning Omski ja Irkutski oblastites. Kinnipidamiskohtades suri 2896 inimest; 4456 inimese saatus on teadmata. [RIR 4, 2003.a., lk 77, 343-345, 352, 355, 363].

**01.04.1951 suurküüditamisega** represseeriti 382 inimest usutunnistuse pärast (jehovistid). Represseeritute hulgas oli 281 sundasunikust perekonnaliiget, 72 vangistatud perekonnapead ja 29 mitteküüditatud tagaotsitavaid inimest. Mehi oli 27,6%, naised 44%, poisse ja tüdrukuid vanusega (küüditamise ajal) 17 aastat ja nooremad kokku 28,4%. Sundasumisel suri 21 inimest, neist 1 teel. Sundasumise kohad olid Tomski oblastis. Asumiselt vabastati aastatel 1955-1965. [RIR 6, lk 349; S. Silliksaar. Sinasilmitsi Siberiga. Võru, Täht 2001].

**1940-1953. aastatel**, suurküüditamiste (1941, 1945, 1949, 1951) vahepealsetel aegadel küüditati üksikisikutena, perekonniti, üksikute vagunitäitena kokku 1683 inimest. See register hõlmab peamiselt 3 isikute liiki: hukatute perekonnad, kes reeglina kuulusid küüditamisele; hukatute perekonnad, kes ülalmärgitud aastail mitmel põhjusel jäeti küüditamata; pärast 1949. a. märtsiküüditamist kulaklikeks tunnustatud perekonnad. Paljudele küüditatud perekondadele ei ole lisatud hukatut pereliikmete kirjeid, kuna need on avaldatud arreteeritute registris RIR 1-3. Selles küüditamiskogumis on 252 isikut täideviidud surmaotsusega, 571 sundasumisele viidud, mitteküüditatud 650 isikut, vangistatud pereliikmeid 53, kulakuks tunnustatud isikuid 33 jne. Nende hulgas oli naised üle 4 korda rohkem kui mehi, poisse ja tüdrukuid vanusega (küüditamise ajal) 17 aastat ja nooremad kokku vähemalt 331. [RIR 6, lk 350].

**1947-1950. aastatel** küüditati Eestist Venemaale inger-soomlased (arv teadmata), kes olid sõja ajal Eestisse elama asunud.

Ülalloodud andmete alusel kavandas ja trükkis postmargi ning illustreeritud kirjaümbriku Eesti Post. Nende müümist postkontorite kaudu alustati 14.06.2007.

*The deported persons were registered and officially confirmed in the numbered KGB case files, either for the whole family or for a separate family member, as well as the non-deported ones.*

*The latter often suffered even more than the deported persons in forced settlement. The deported persons comprised 62.6% women and 32% children of 17 years or younger as of the deportation date. The forced settlement locations were mostly in the Novosibirsk Region (10080 persons) and the Krasnoyarsk Territory (6654), as well as in the Omsk and Irkutsk regions. 2896 people died at detention locations; the fate of 4456 people remains unknown. [RRP 4, 2003, pages 77, 343-345, 352, 355, 363].*

*During the extensive deportation on the 1st of April, 1951, 382 persons were repressed due to their religious convictions (Jehovah's Witnesses). That number included 281 family members sent into forced settlement, 72 imprisoned family heads and 29 non-deported refugees. There were 27.6% men, 44% women and 28.4% boys and girls of 17 years or younger as of the deportation date. 21 persons died in forced settlement, 1 already en route. The forced settlement locations were in the Tomsk Region. People were released from forced settlement in 1955-1965. [RRP 6, page 349; S. Silliksaar. Sinasilmitsi Siberiga /Personal encounter with Siberia/. Võru, Täht 2001].*

*In the periods between the extensive deportations in 1940-1953 (1941, 1945, 1949, 1951), a total of 1683 persons were deported – individuals, whole families, separate railway cars. This register contains mainly 3 types of persons: families of executed people who were as a rule designated for deportation; families of executed people who for various reasons remained undeported in the aforementioned years; families deemed to be kulaks (rich peasants) after the March 1949 deportation. The data for many deported families does not include entries for the executed family members because these have been published in the records of arrested persons (RRP 1-3). This deportation compilation contains information about 252 persons whose death sentences were carried out, 571 persons sent into forced settlement, 650 non-deported persons, 53 imprisoned family members, 33 persons deemed kulaks, etc. There were over 4 times more women than men and at least 331 boys and girls of 17 years or younger as of the deportation date. [RRP 6, page 350].*

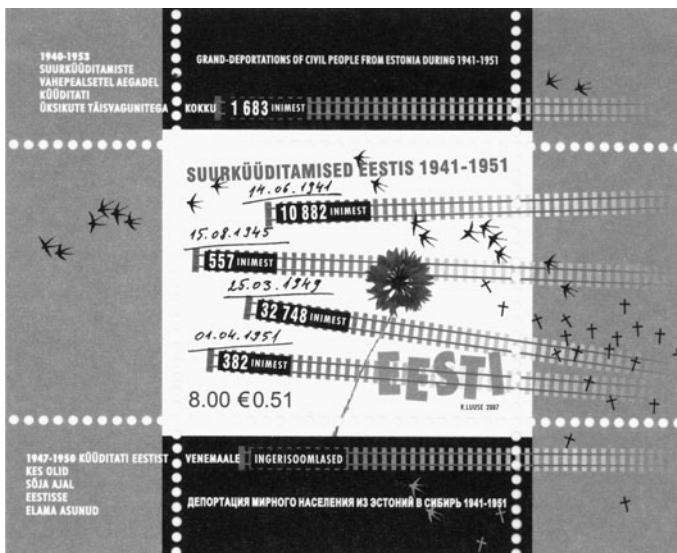

*In 1947-1950 the Ingrian Finns (unknown quantity) who had moved to Estonia during the Second World War were deported from Estonia to Russia.*

*On the basis of the aforementioned information, the postage stamp and the illustrated envelope were designed and printed by Eesti Post. They went on sale at post offices on 14.06.2007.*

## 2.2. EESTI MEMENTO LIIDU TEGEVUSEST 2007. AASTAL ESTONIAN MEMENTO UNION ACTIVITIES UP TO 2007

Eesti Memento Liidul (EML) ja tema maakondlikel ning linnade organisatsioonidel on ja on olnud alates asutamisest 25. märtsil 1989 (või üksikutes regioonides ka hiljem) erinevaid ametlikult registreeritud nimetusi. Näiteks: Memento Liit; Õigusvastaselt Represseeritute Ühingute Ühendus Memento Liit (EÕRL); Eesti Õigusvastaselt Represseeritute Liidu (EÕRL) Memento Tallinna Ühendus jt. 2007. aastal kuulunud EML alljärgnevad ametlikult registreeritud liikmesorganisatsioonid:

1. Kommunistide repressioonide all kannatanute Alutaguse organisatsioon Memento; 2. EÕRL Memento Harjumaa Ühendus; 3. Vabadusvõitlejate ja Represseeritute Hiiumaa Ühendus; 4. Jõgeva Maakonna Endiste Poliitvangide ja Represseeritute Ühing; 5. Memento Järvamaa Ühendus; 6. MTÜ Läänemaa Memento; 7. Õigusvastaselt Represseeritute Narva Koondis; 8. Eesti Memento Liit (lühidalt Liit) ühendab Eesti iseseisvuse eest võidelnute, kannatanute ning nende omaste ja aatekaaslaste mittetulundusühinguid, seltsinguid. Liidu tegevuse eesmärgiks on: kindlustada ja kaitsta Eesti iseseisvust; kaitsta iseseisvuse eest võidelnute ja terrori all kannatanute poliitilisi, sotsiaalseid ja majanduslikke õigusi, jne.

EML põhikirjaliste eesmärkide täitmist tõendavad must-valged fotodokumentid lehekülgedel 18-31 kui ka värvifotod lehekülgedel 33-64. Memento Liit ning Isamaaliit ja Res Publica Liit tunnistasid senise lepingulise koostöö edukaks ja 15. veebruaril 2007 sõlmiti Toompea lossis Riigikogu XI koosseisu tegevusperioodiks aastatel 2007-2011 uue sisuga koostöölepe, vt foto lk 62 ja 63. Eesti Memento Liidu ja Eesti Reformierakonna koostöölepe sõlmiti Tallinnas Stenbocki majas 27. veebruaril 2007, vt fotod lehekülgedel 60 ja 61. Mõlemas koostööleppes toetatakse Vabadussõja Võidusamba püstitamist ja Kommunismiohvrite memoriaali rajamist Tallinna. Samuti toetatakse mõlemas kokkuleppes M. Laari ja A. Ansipi allkirjadega Eesti Represseeritute Registri Büroo tegevust. Nimetatud koostöölepete täistekstid on avaldatud (regulaarset ilmumist uuesti alustanud) EML teatajas „Memento“ nr 4 (88) veebruaris 2007.

*The Estonian Memento Union (EMU) and its county and city organisations have since their foundation date of March 25<sup>th</sup>, 1989 (in some regions later), had different officially registered names, for instance: Memento Union, Association “Memento Union” of Illegally Repressed Persons’ Organisations, Tallinn Memento Association of the Estonian Union of Illegally Repressed Persons (EUIRP), etc. In 2007 the EMU included the following officially registered member-organisations:*

*The Estonian Memento Union incorporates non-profit associations and societies of the persons who fought and suffered for Estonia’s independence, as well as their families and those who shared their ideals. The goals of the union’s activities are to ensure and protect the independence of Estonia; to protect the political, social and economic rights of those who fought for our independence and suffered under acts of terror.*

*Successful compliance with the goals stipulated in the EMU Statutes is proved by the black-and-white photographs on pages 18-31 and the colour photographs on pages 33-64. The Memento Union and the Isamaa and Res Publica party block, acknowledging that their agreement-based cooperation so far had been successful, signed on the 15th of February, 2007, at the Toompea Castle, a new cooperation agreement for the years 2007-2011 (the Riigikogu XI membership period) – see photo on page 62 and 63. The cooperation agreement between the Estonian Memento Union and the Estonian Reform Party was concluded on the 27th of February, 2007, in Tallinn at the Stenbock Building (government seat) – see photos on pages 60 and 61. Both cooperation agreements support erection of the War of Independence Victory Column and creation of the Memorial to Victims of Communism in Tallinn. Both cooperation agreements also support with the signatures of M. Laar and A. Ansip the activities of the Estonian Repressed Persons Records Bureau. The full texts of the aforementioned cooperation agreements were published in the Memento Messenger magazine of the EMU, issue No. 4 (88), February 2007.*

14. juunil 1941 Saaremaalt Kirowi obl. Nagorski raj. küüditatud inimesed kogunevad traditsiooniliselt iga aasta augustikuu eelviimasel laupäeval. Viimased 16 korda on kogunenud Saaremaal. Varem, alates 1960. aastatest koguneti poolsalaja erinevates kohtades mandrii, näiteks sünnipäevadele. Paljudele meie hulgast ei antud luba kodusaaresle sõita.

*The people who were deported from Saaremaa on the 14<sup>th</sup> of June, 1941, to the Nagorsky District in the Kirow Region observe the tradition of annual gatherings on the penultimate Saturday in August. The most recent 16 meetings have taken place on Saaremaa. Previously, from the 1960s onward, the semi-secret gatherings took place at various locations in continental Estonia, for instance under the pretext of celebrating someone's birthday. Many of us were not allowed to visit the home island.*

### 3. STATISTIKA R1-R6

#### STATISTICS R1-R6

Statistika R1-R6 hõlmab andmeid, mis on avaldatud käesoleva raamatu R7 peatüki „Nimede koondregistri R1-R6“ 623 lehekülje 87 035 isiku lühiaandmetega kirjeridadel. See andmetehulk on vastavuses varemavaldatud kuue nimekirjaraamatu R1-R6 represseeritute täisandmetega kirjete andmetele järgmiste täpsustustega. **Esimene täpsustus.** Raamatute R1-R6 täisandmetega kirjete, kuni 20 ning sageli enam andmepositsioonist kasutatakse koondregistri lühiaandmetega kirjeridadel lakooniliselt vaid kuni 5-7 andmepositsiooni. **Teine täpsustus.** Koondregistris on likvideeritud enamus ekslikest korduvkirjetest (sama inimese erineva nimekujuga või erinevate andmetega kirjed jne), mis vähendas kirjete kogusummat 0,51%. Sama isiku mitmekordne arreteerimine, samuti küüditamine ja arreteerimine või arreteerimine ja küüditamine ei suurenda käesolevas koondregistris represseeritud isikute arvu, suurendab vaid korduvkirjete arvu. Seetõttu on koondregistri vahendusel kokkuloetud represseeritud inimeste arv ja kirjete koguarv mõnevõrra väiksemad kui raamatute R1-R6 avaldamisel kokkuloetud arvud, vt tabel 3.3.

*The statistical information in the R1-R6 books covers the data published in the entry lines with brief data for the 87 035 persons on the 623 pages of the chapter titled “R1-R6 consolidated names register” in this R7 book. This data pool is in compliance with the entries with full data on the repressed persons previously published in the R1-R6 name list books, with the following provisos. **First proviso.** Of the full-data entries in the R1-R6 books, with up to 20 and sometimes even more parameters included, the brief-data entry lines in the consolidated register use only 5-7 concise parameters. **Second proviso.** The consolidated register compilation process eliminated most of the erroneous recurrent entries (more than one entry for the same person with different name spelling variants or different data, etc.), reducing the total quantity of the entries by 0.51%. Instances of several arrests of the same person, as well as arrest followed by deportation or arrest coupled with deportation, do not increase the number of the repressed persons listed in this consolidated register, increasing only the number of the recurrent entries. That is why the quantity of the repressed persons and the entries in this consolidated register are somewhat lower than the same total figures as published in the R1-R6 name list books, see Table 3.3.*

**Kolmas täpsustus.** Koondregistris on surma tähistavaid ristikesi „†“ 486 võrra rohkem kui oli surma andmeid varem avaldatud raamatutes R1-R6 kokku. Need 486 surmajähtumit kinnipidamiskohtades leiti arhiivandmetest pärast raamatute avaldamist ja kuuluvad vajalike korduvkirjetena lisanimistusse R8. Koondregistris neile 486-le vastavaid korduvkirjeid ei ole.

Tabeli 3.1 sisuline pealkiri võiks olla „raamatute R1-R6 koondregistri vahendusel kokkuloetud isikute ja kirjete arvu jagunemine 6 raamatu 11 põhinimestiku vahel“. Koondregistri kirjeridade järjekorranumbriga kokku loetud inimeste arv on 87035. Kirjete arv on siin 11 põhinimestiku tähiste (R1-R6-5, vt lk 80-81) kasutuskordade koguarv 97 353 (vt tabelis 3.1 „kokku kirjeid“ ja tabelis 3.3 „esma-ja korduvkirjeid kokku“). Kirjete koguarv 97 353 on 87 035 isiku esimese kirje (esmakirje) arvu ja korduvkirjete arvu 10 318 summa. Korduvkirjed jagunevad vajalikeks ja ekslikeks. Vajalikud korduvkirjed on publitseeritud nimekirjaraamatutes reeglina tähistatud sõnadega „Avaldatud uuesti“. Viimased täiendavad ja korrigeerivad varem avaldatud esmakirjeid andmetega, mis on leitud hiljem. Koondregistris on vajalike korduvkirjetena vormistatud ka mitmekordne, aastaid hiljem toimunud vangistamine või küüditatute hulgast vangilaagrisse paigutamine jne. Enamik ekslikest korduvkirjetest likvideeriti koondregistri abil. Tabelites 3.1 ja 3.3 esitatud andmete jagunemist raamatute lõikes illustreerivad joonistel 3.1, 3.3 ja 3.5 diagrammid.

Kinnipidamiskohtades surnud inimeste andmed on tabelites 3.2, 3.3, 3.4 ja 3.5 ning neid andmeid illustreerivad jooniste 3.2, 3.3, 3.4, 3.5 ja 3.6 graafikud ning diagrammid. Koondregistris on üldnimetusega „surnud“ tähistavaid riste „†“ 19 142 ehk 24,96% kinnipidamiskohtades olnud inimestest, kaasa arvatud need, kes surid enne kohale jõudmist. Reeglina ei jõudnud 10 331 mitteküüditatud isikut kinnipidamiskohtadesse ja neid ei arvestata surnute protsendi arvutamisel. Meie andmebaaside alusel on koostatud naasmise tabel 87035 isiku kohta. Naasmise tabelis puuduvad 19 316 represseeritu puhul andmed vabaneamise või surma kohta. Seega võib oletada, et surnute protsent on tegelikult suurem, – maksimaalselt 50,1%. Jooniste 3.1 ja 3.4 diagrammide ja graafikute alusel oli kõige enam surnuid vanuseklassis, sünniaastatega 1891-1910. Suhteliselt (protsentides) surid kõige enam vanemad inimesed. Mõiste „surnud“ lahtiseletamiseks on tabelis 3.2 surmade liigitamine andmebaaside ehk arhiivdokumentide sõnastuse alusel.

**Third proviso.** The consolidated register has 486 more cross characters (†) that denote death than there were deaths recorded in the previously published R1-R6 books in total. These 486 additional death cases at detention locations were discovered in archives after the books had been published and are to be included as necessary recurrent entries in the R8 additional name list. There are no recurrent entries corresponding to the 486 instances in the consolidated register.

The title of Table 3.1 could in essence be “Distribution of persons and entries listed in R1-R6 books’ consolidated register among 11 main name lists in 6 books”. The quantity of the people listed in the entry lines with sequence numbers in the consolidated register is 87 035. The total quantity of the entries here is 97 353, which is their total quantity in the 11 main name lists (R1-R6-5) – see Tables 3.1 “Total entries” and 3.3 “Total initial and recurrent entries”. The total quantity of the entries – 97 353 – is the sum of all first (initial) entries for each person, 87 035, and of the recurrent entries, 10 318. The recurrent entries are divided into necessary and erroneous recurrent entries. The necessary recurrent entries are published in the name list books and, as a rule, are marked with the phrase “Published again”. They supplement and correct the corresponding previously published initial entries with the information that was discovered later. The consolidated register includes as necessary recurrent entries also instances of multiple imprisonment, sometimes happening again many years later, or transfer of a person from among the deported into a prison camp, etc. The majority of the erroneous recurrent entries has been liquidated with the aid of the consolidated register. The distribution of the data presented in Tables 3.1 and 3.3 among the books is illustrated by the charts in Figures 3.1, 3.3 and 3.5.

The data about the people who died at detention locations is presented in Tables 3.2, 3.3, 3.4 and 3.5, illustrated by graphs and charts in Figures 3.2, 3.3, 3.4, 3.5 and 3.6. The consolidated register contains 19 142 crosses (†) denoting the deceased – 24.96% of the people who were at detention locations, including those who had died before arrival. Most of the 10 331 undepoorted persons never reached detention locations and they are thus not included in the death rate calculation. A table with data on the returnees was compiled on the basis of the corresponding information about the 87 035 persons in our databases. The returnees table has no release/death data about 19 316 repressed persons. It can thus be assumed that the death rate is actually higher – 50.1% at most. The charts and graphs in Figures 3.1 and 3.4 indicate that the largest number of deaths occurred among the adults, those who had been born in 1891-1910. The relative (percentage) death rate was highest among the older persons in general. The general term “deceased” is explained in Table 3.2 where the classification of death types is included as phrased in the databases and the archival documents from which the data was derived.

## 5.1. ABIKS KOONDREGISTRI KASUTAJALE

Nimede koondregister on 623 leheküljel. See hõlmab põhiosa käesolevast nimekirjaraamatust nr 7, mille lühitähis on R1R7 ehk veelgi lühemalt R7. Koondregister on sisujuht isikuandmete leidmiseks kuuest mahukast nimekirjaraamatust R1-R6. Koondregister abistas meid oluliselt ekslike korduvkirjete likvideerimisel ja vajalike korduvkirjete kokkulükkamisel. Käesolev register ühendab 1940-1989 Eestis poliitilistel põhjustel tapetud, arreteeritud, küüditatud ja küüditamisele määratud 87 035 isikut lühiandmete tasandil. Lühiandmetega üldine tähestikuline „Nimede koondregister R1-R6“ koosneb kirjeridadest, kus igaühes on kuni 7 andmepositsiooni. Näiteks kirjeread:

**28741. Kõiv, Mart, 1886, R1, R2, R3, R6-2, †**

**28983. Kõressaar, Johan, 1892, ka Kõressaar, R3, R6-2**

**28989. Kõressaar, Jaan, 1936, R5**

**Kõressaar, Johan, 1892, vt Kõressaar Johan, R3.**

Ülalpool viimane järjekorranumbrita kirjerida on „viitekirje“. Nendes näidetes ülemises 28741 on järjekorranumber; Kõiv – perekonnanimi; Mart – eesnimi; 1886 – sünniaasta; **R1, R2, R3, R6-2** on täisandmetega põhinimestike tähised, kust leiate Mart Kõivu täisandmed; „†“ tähistab surma kinnipidamiskohas.

Täisandmetega põhinimestike tähiseid on 11. Põhinimestikud asuvad kuues nimekirjaraamatus **R1-R6**:

- R1** asub represseeritud isikute registrite (RIR) raamatus nr 1, pealkirjaga „Poliitilised arreteerimised Eestis 1940-1988“, lehekülgedel 1-633. Tähistele RIR nr 1 ehk R1 vastava raamatu andmed on R7, peatükis „Väljaannete seeria“, lk 718.
- R2** asub RIR raamatus nr 2, pealkirjaga „Nõukogude okupatsioonivõimu poliitilised arreteerimised Eestis“, lehekülgedel 1-602.
- R3** asub RIR raamatus nr 3, pealkirjaga „Nõukogude okupatsioonivõimu poliitilised arreteerimised Eestis“, lehekülgedel 307-822.
- R4-1** asub RIR raamatus nr 4, pealkirjaga „Küüditamine Eestist Venemaale. Märtsiküüditamine 1949. 1. osa“, lehekülgedel 591-645 „Nimestik R4-1“.
- R4-2** asub RIR raamatus nr 4, pealkirjaga „Küüditamine Eestist Venemaale. Märtsiküüditamine 1949. 1.osa“, lehekülgedel 659-667 „Lisanimestik R4-2“.
- R5** asub RIR raamatus nr 5, pealkirjaga „Küüditamine Eestist Venemaale. Märtsiküüditamine 1949. 2.osa“, lehekülgedel 21-726.

## 5.1. EXPLANATORY NOTES FOR CONSOLIDATED REGISTER USERS

*The consolidated names register spans 623 pages. It comprises the main part of this name list book No. 7, briefly denoted in Estonian as R1R7 or just R7 (RIR: represseeritud isikute register – register of repressed persons). The consolidated register serves as a content guide for looking up personal data in the six voluminous R1-R6 name list books. The consolidated register was of substantial assistance to us in eliminating erroneous recurrent entries and merging the necessary recurrent entries. This register incorporates brief data for the 87 035 persons killed, arrested, deported or designated for deportation in Estonia in 1940-1989 on political grounds. The general alphabetical “R1-R6 consolidated register of names” with brief data consists of entry lines, each with up to 7 data units. For instance:*

**28741. Kõiv, Mart, 1886, R1, R2, R3, R6-2, †**

**28983. Kõressaar, Johan, 1892, ka Kõressaar, R3, R6-2**

**28989. Kõressaar, Jaan, 1936, R5**

**Kõressaar, Johan, 1892, vt Kõressaar Johan, R3.**

*In the excerpt above the last line (without a number before the name) is a so-called reference entry. The upper line in the example: 28741 – sequence number; Kõiv – surname; Mart – first name; 1886 – year of birth; **R1, R2, R3, R6-2** – denotations of the main name lists with full data where you can find complete information about Mart Kõiv; “†” denotes death at detention location.*

*There are 11 denotations of main name lists with full data. The main name lists are in the six **R1-R6** name list books:*

- R1** is in the RIR1 book “Political arrests in Estonia 1940–1988”, pages 1-633. The information regarding the RIR1 (R1) book is in R7 in chapter “Series of publications”, page 718.
- R2** is in RIR2 book “Political arrests in Estonia by the Soviet occupational regime”, pages 1-602.
- R3** is in RIR3 book “Political arrests in Estonia by the Soviet occupational regime”, pages 307-822.
- R4-1** is in RIR4 book “Deportation from Estonia to Russia. Deportation in March of 1949. Part 1”, pages 591-645 – “R4-1 name list”.
- R4-2** is in RIR4 book “Deportation from Estonia to Russia. Deportation in March of 1949. Part 1”, pages 659-667 – “R4-2 additional name list”.

- R6-3** is in RIR6 book “Deportation from Estonia to Russia. Deportation in June of 1941 and deportations in 1940-1953”, pages 773-794 – “Deported as Germans on 15.08.1945”.
- R6-4** is in RIR6 book, pages 801-854 – “Intermediate deportations in 1945-1953”.
- R6-5** is in RIR6 book, pages 867-879 – “Deported on religious grounds (01.04.51)”.

Antud juhul asub ülemise kirjerea alusel Mart Kõivu täisandmetega esmakirje nimestikus **R1** ja mainitud kirjet tuleb otsida sealt, vt lk 218; täiendavate andmetega korduvkirje asub nimestikus **R2**, vt lk. 207; veel kord täpsustatud andmetega korduvkirje „Avaldatud uuesti“ asub nimestikus **R3**, lk 483. Nimestikus **R6-2**, lk 480 on Mart Kõivu kui arreteeritud perekonnapea andmed koos 14.06.41 küüditatud perekonnaliikmetega.

Kui mõne andmepositsiooni kohal on „?“, siis näiteks 38476. Maiste, ?, 1895, R3, † puhul ei ole teada eesnimi.

Nimede koondregistri kasutamine kiirendab isiku täisandmetega repressioonikirje ja korduvkirjete leidmist 11 nimestikust. Tähestikuline koondregister üheteistkümnest eraldi tähestikulisest nimekirjast aitab välistada korduvnimeid loendamist statistika jaoks.

Nimestikus **R4-1**, **R5**, **R6-1**, **R6-2**, **R6-3**, **R6-4** ja **R6-5** on küüditatud isikud perekondade kaupa, perekonnapeade perekonnanimede tähestikulisel järjekorras. Perekonnapeale järgneb abikaasa, seejärel laste (vanimast alates) kirjed, kusjuures ühisandmeid (põhielukoht ja uus elukoht, väljasaatmise otsuse andmed) reeglina enam ei korra. Viimastena antakse perekonnapeast erineva perekonnanimega sugulased.

Perekonnapeast erineva perekonnanimega sugulased on nende ülesleidmise hõlbustamiseks lülitatud nimekirja veel teistkordselt, täiendava viitekirjana. See tähendab: perekonnanimede tähestikulisel järjestuses õigel kohal ning siis veel viitega põhiperekonnanimetele, kelle perekonda nad kuuluvad. Näiteks:

„2106. **Alt**, Liisa, 1883, **R4-1**“. Sellele vastavas täiskirjes on viide „perek. Altpere A.“. Viitekirjed on koondregistris ilma järjekorranumbriga, kuna need on korduvad kirjed. Näiteks ülalpool järjekorranumbriga „28989. Kõressaar, Jaan, 1936, R5“ ja sellele järgnev ilma järjekorranumbriga viitekirj „Kõressaar, Johan, 1892, vt Kõressaar Johan, R3“.

*In this particular instance, the upper line shows that the initial entry for Mart Kõiv with full data is in the **R1** name list and can be found on page 218 of the corresponding book, the recurrent entry with additional data is in the **R2** name list and can be found on page 207 of the corresponding book, another recurrent entry with further specified data (“published again”) is in the **R3** name list and can be found on page 483 of the corresponding book. The **R6-2** name list on page 480 contains data on Mart Kõiv as an arrested family head along with the family members deported on 14.06.41.*

*If a certain data unit comprises the question mark, the corresponding information is unavailable, for example “38476. Maiste, ?, 1895, R3, †” – the first name of the person is not known.*

*The use of the consolidated names register speeds up finding the desired person’s full-data repression entries and recurrent entries in the 11 name lists. The alphabetical consolidated register of eleven separate alphabetical name lists facilitates exclusion of recurrent names in statistical generalisations.*

*The **R4-1**, **R5**, **R6-1**, **R6-2**, **R6-3**, **R6-4** and **R6-5** name lists contain deported persons in family clusters, arranged alphabetically by surnames of the family heads. The family head entry is followed by the spouse entry, then come the entries of their children (starting with the oldest child), whereas common information (main residence location and new residence location, deportation decision data) is not repeated as a rule. The cluster ends with the relatives with surnames different from that of the family head.*

*Such relatives with surnames different from that of the family head are included in the name list for the second time, as an additional reference entry, to make the task of finding them easier. So that relative is in his/her proper alphabetical place in the surname sequence and then also as a reference to the surname of the corresponding family head. For instance:*

*“2106. **Alt**, Liisa, 1883, **R4-1**“. In the corresponding full entry is a reference to the family – “perek. Altpere A.“. The reference entries in the consolidated register have no sequence number as they are recurrent entries. For example, above with a sequence number – “28989. Kõressaar, Jaan, 1936, R5”, followed by the reference without a sequence number “Kõressaar, Johan, 1892, vt Kõressaar Johan, R3”.*

## **6. KOMMUNISMIOHVRITE MASSIMÕRVAPÄEVAD** *DAYS OF MASS MURDERS OF VICTIMS OF COMMUNISM*

Kõik vangistatud ja sundasustatud (küüditatud) inimesed olid kommunismi-ohvrid. Massimõrvadega püüti kiirustada ohvrite lõplikku hävitamist. Üldmõiste „surm“ hõlmab siin KGB arhiividokumentidest väljaotsitud sõnastuses järgmisi alaliike, pingereana: surnud, surnud vanglas (laagris), surmaotsus täide viidud, surnud asumisel, mõrvatud, surnud eeluurimisel jm, vt statistika osa tabel 3.2. Surma kuupäevad on võetud koondregistris loendatud 87 035 isiku täiskirjetest.

*All persons who were imprisoned and sent into forced settlement (deported) were victims of communism. Their mass murders were perpetrated to expedite the complete elimination of the victims. The general notion of “death” in this context includes the following death cause phrasings as discovered in documents from the KGB archives: died, died in prison (camp), death sentence carried out, died in settlement, murdered, died during preliminary investigation, etc., see the statistical Table 3.2. The death dates were taken from the complete entries of the 87 035 persons listed in the consolidated register.*

## 6. MASSIMÖRVAPÄEVAD

Allpool tabelis 6.1. on esitatud kuupäevad, millal suri 25 või rohkem inimest. Harilik suremise foon oli 0-7 inimest päevas 1942. aastal, vt R6 lk 313. Seega tabelis 6.1. on 43 tapapäeva. Nendel tapapäevadel surnud inimeste andmed ja surmakohad vajavad andmebaasidest väljaselekteerimist ja faktid selgitamist. 1941. aasta suurküüditamise perekonnapeade puhul toimus 13.04.1942, 20.04.1942, 21.04.1942, 24.04.1942 ja 04.05.1942 peamiselt surmaotsuste täideviimine Sevurallagis, vt R6 lk 316. Kõrvutiolevate päevade väikesed (25-sed jt) tapapäevad moodustavad ühe suure massimõrvapäeva.

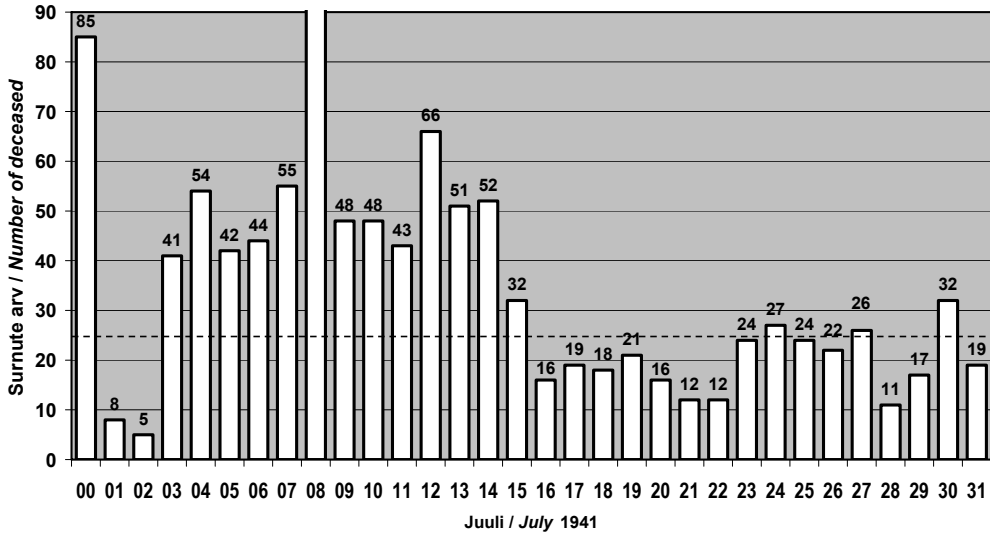

The Table 6.1. below contains the dates on which 25 or more people died. The ordinary quantity of deaths per day in 1942 was between 0 and 7, see R6 on page 313. Therefore the Table 6.1. contains 43 murder dates. The data and demise locations of the persons who died on those days of murder need to be selected from the databases and the corresponding facts examined. Death sentences of the family heads arrested in the extensive deportation of 1941 were carried out on 13.04.1942, 20.04.1942, 21.04.1942, 24.04.1942 and 04.05.1942 mainly at Sevurallag, see R6 on page 316. The neighbouring smaller (25 persons and such) murder dates comprise one large day of mass murder.

## 7. AUTORID, ANDMETE KOGUJAD JA TÖÖTLEJAD

### *AUTHORS, DATA COLLECTORS AND PROCESSORS*

Allpool esitletud 11 daami ja härra tegevus „Nimede koondregistri R1-R6“ ehk Memento nimekirjaraamatu R7 käsikirja valmimisel oli alljärgnev: uute tekstide autor – L. Öispuu; andmeid kogusid ja töötlesid kõik need inimesed; andmeid sisestas elektroonilisse registrisse M. Saks; arvutitöötlus T. Lõo ja A. Prikk. Oma töö eest sai 11 ERRB töötajat väga väikest töötasu. Eraldi autoritasu ega toimetamise tasu ei maksta, kuna sissetulek kulub täielikult (ja jääb veel puudu) järgmise represseeritute nimekirjaraamatu väljaandmiseks. Kuna koondregister R7 baseerub kuue nimekirjaraamatu R1-R6 andmetel, siis tuleb käesoleva raamatu andmete kogujateks ja tötlejateks lugeda kõiki kuues raamatus loetletud kaastöötajaid.

*The input of the 11 ladies and gentlemen introduced below in the completion of the “Consolidated register of names R1-R6” or the manuscript of Memento’s name list book R7 was such: author of new texts – L. Öispuu; data collected and processed by all those people; data entered in the electronic register by M. Saks; computer processing – T. Lõo and A. Prikk. The 11 ERPRB employees received a very modest remuneration for their work. There are no royalties or editing payments because all revenue will be invested (and even that will be insufficient) in publication of the next book with a name list of repressed persons.*

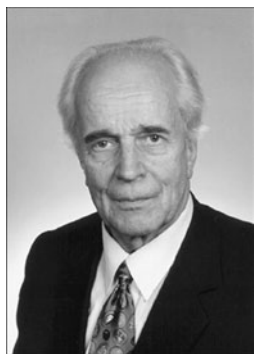

*As the R7 consolidated register is based on the data from the R1-R6 name list books, we should view all our colleagues who were listed as data collectors and processors in the previous six books as contributors to this latest book.*

Suur tänu kõigile kaastöötajatele hea töö eest.

*We would like to express our enormous gratitude to all our colleagues for the job well done.*
